Subject Index

ABO-haemolytic disease of the newborn, complement is not activated in (BROUWERS *et al*), 363
Adipocytes, alkaline phosphatase positive precursors of, in the human bone marrow (BIANCO *et al*), 401
Anaemia, a new congenital dyserythropoietic (OHISALO *et al*), 111
Anaemia, carbimazole-induced haemolutic: role of drug–red blood cell complexes for immunization (SALAMA *et al*), 479
Anaemia, gold-induced aplastic, treatment with immunosuppressive therapy (DONEY *et al*), 469
Anaemia, refractory, thrombopoietic inhibitory activity in serum in patients with (PUTINTSEVA & GARCÍA-TRIANA), 265
Antilymphocyte globulin preparations, different, immunostimulatory effects of: a possible clue to their clinical effect (KAWANO *et al*), 115
Anti-PI^{E1} antibody, human, recognizes epitopes associated with the alpha subunit of platelet glycoprotein Ib (FURIHATA *et al*), 103
Basophil count in samples from chronic leukaemia patients analysed by the automated flow cytochemistry technology (LANZA & GASTOLDI) 495
Bernard-Soulier-like platelet defect, an acquired, associated with juvenile myelodysplastic syndrome (BERNDT *et al*), 97
Bleeding disorders, heterogeneous defects of platelet secretion and responses to weak agonists in patients with (LAGES & WEISS), 53
Bone marrow tranaplantation, allogeneic, use of minisatellite DNA probes for recognition and characterization of relapse after (MIN *et al*), 195
Book reviews
Cancer Cytogenetics, 502
Clinical Haemotology Illustrated: An Integrated Text and Colour Atlas, 501
Hairy Cell and Chronic Lymphocytic Leukemia, 500
Hematologic Malignancies, 146

Hodgkins Disease, 145
Methods for Studying Platelets and Megakaryocytes, 272
Sickle Cell Anemia and Thalassaemia: A Primer for Health Care Professionals, 503
The Acute Leukaemias: Biologic, Diagnostic, and Therapeutic Determinants, 500
The Molecular Basis of Blood Diseaes, 145
The Year Book of Hematology, 1987, 146
Venous Thrombosis: Causation and Prediction, 500
Venous Thrombosis and Pulmonary Embolism: Diagnostic Methods, 272
White Cells and Platelets in Blood Transfusion, 503

Crosslinked fibrin degradation products, monoclonal antibodies to, I and II (GAFFNEY *et al*), 83, 91
Cyclosporin A in adult-onset cyclic neutropenia (SELLERI *et al*), 137
Cytolysis, monocyte-mediated, monocyte-derived macrophages as helper cells in (DALLEGRI *et al*), 33
Cytoskeleton organization of normal and neoplastic lymphocytes and lymphoid cell lines of T and B origin (ZAULI *et al*), 405

Diamond-Blackfan anaemia and other haematologic diseases, a marker of disordered erythropoiesis in: elevated red cell adenosine deaminase activity (GLADER & BACKER), 165
Disseminated intravenous coagulation, possible association with the chromosomal region 17q12–21 and the gene for glycoprotein IIb–IIIa complex (BRITO-BABUPULLE *et al*), 142
DNA deletion, four base-pair, in human globin-gene promoter associated with low $^{A}\gamma$ expression in adults (GILMAN *et al*), 455
Down's syndrome, transient myeloproliferative disorder with, platelet peroxidase-positive blast cells in (SUDA *et al*), 181
Dysfibrinogenaemia, inherited, and protein C deficiency in two unrelated families (GANDRILLE *et al*), 329

Erythropoiesis, demonstration of three distinct immunological disorders of, in a patient with pure red cell aplasia and autoimmune haemolytic anaemia associated with thymoma (TANIGUCHI *et al*), 473
Erythropoiesis, hypoxia and intestinal iron (Fe^{3+}) absorption in the mouse, *in vivo* studies on the relationship between (RAJA *et al*), 373

Factor VIII-heavy chain, radioimmunoassay for quantitative measurement of (NORDFANG *et al*), 307
Factor IX, inhibitors to, in haemophilia B patients, IgG subclass identification of (ÖRSTAVIK & MILLER), 451
Factor XIII, bleeding tendency caused by IgG inhibitor to, treated successfully by cyclophosphamide (NAKAMURA *et al*), 313
Felty's syndrome, lack of evidence for the presence of neutrophil autoantibodies in the serum of patients with (GOLDSCHMEDING *et al*), 37
Ferritin-binding proteins in serum (NIITSU *et al*), 496
Glutathione peroxidase in the anti-oxidant system of erythrocytes, the role of (FUJII), 263
Granulocyte-monocyte progenitors, human, effects of recombinant human H-subunit and L-subunit ferritins on *in vitro* growth of (DEZZA *et al*), 367
Granulocytes, polymorphonuclear, polynuclear iron complexes impair the function of (HOEPELMAN *et al*), 385
Grey platelet syndrome, normal levels but defective secretion in: platelet-associated immunoglobulins G, A and M are secreted during platelet activation (PFUELLER & DAVID), 235
G6PD, Mediterranean, recent developments on (GAETANI & FERRARIS), 1

Haemoglobin M-Hyde Park associated with polyagglutinable red blood cells in a South African family (BIRD *et al*), 459
Haemophilia, severe, high-dose intravenous immunoglobulin and splenectomy for the treatment of HIV-related immune thrombocytopenia in patients with (BEARD & SAVIDGE), 303
Haemophiliacs, antiphospholipid antibodies in (BRIEN *et al*), 270
Haemopoietic progenitors and the haemopoietic microenvironment in mice, effects of cis-diamminedichloroplatinum (II) upon (NIKKELS *et al*), 3
Haemostasis, primary, impairment by low molecular weight heparins (BOROWSKA *et al*), 339
Hb Lepore-Boston-β-thalassaemia, variation in clinical severity among patients with, is related to the type of β-thalassaemia (EFREMOV *et al*), 351
Hepatitis after factor VIII concentrate exposed to hot vapour, prospective study of (MANUCCI *et al*), 427
HIV infected patients with or without immune thrombocytopenic purpura, anticardiolipin antibodies in (INTRATOR *et al*), 269
HIV infection, non-immune nature of anaemia in (DODSWORTH & WIENER), 498
HIV seropositive subjects, HLA antigens and thrombocytopenia in (CATTENEO *et al*), 268
HLA antibody formation, transient, in multitransfused patients with malignancy (MCGRATH *et al*), 345
Hodgkin's disease, acute lymphoblastic leukaemia occurring 6 years after treatment of (SONNEVELD *et al*), 261
HTLV-I seropositive individuals, polyclonal integration of HTLV-I proviral DNA in lymphocytes from: an intermediate state between the healthy carrier state and smouldering ATL (YAMAGUCHI *et al*), 169
HTLV-III infection, anticardiolipin antibodies associated with (CONOSO *et al*), 270
Hypoprothrombinaemia following antibiotic therapy in malnourished patients with low serum vitamin K_1 levels, the development of (COHEN *et al*), 63

Immunoglobulin G preparation, commercial, effect on human monocyte Fc-receptor dependent binding of antibody coated platelets (SALEH *et al*), 47
Immunoglobulins G, A and M, platelet-associated, are secreted during platelet activation: normal levels but defective secretion in grey platelet syndrome (PFUELLER & DAVID), 235
Interleukin 2 production in bone marrow of normal individuals and patients associated with B-cell chronic lymphocytic leukaemia (ROSSI *et al*), 203
Iron transport through erythroid cell membrane, carrier mediated (EGYED), 483

Leukaemia, acute, ectopic production of calcitonin and hypocalcaemia in (OSCIER & STEVENSON), 265
Leukaemia, acute lymphoblastic, occurring 6 years after treatment of Hodgkin's disease (SONNEVELD *et al*), 261
Leukaemia, acute lymphoblastic, of B cell origin in an anti-HIV positive intravenous drug abuser (ROSSI *et al*), 140
Leukaemia, acute myelogenous, and primary myelodysplastic syndrome, refined chromosome study helps define prognostic subgroups in most patients with (YUNIS *et al*), 189
Leukaemia, acute myelogenous, in first remission, allogeneic bone marrow transplantation versus intensification chemotherapy for: a prospective controlled trial (CONDE *et al*), 219
Leukaemia, acute myeloid, a second bone marrow transplant for, after transplantation for aplastic anaemia (HUGHES *et al*), 391
Leukaemia, acute promyelocytic, beneficial effect of heparin in the management of patients with (HOYLE *et al*), 283
Leukaemia, acute promyelocytic, with 'faggot cells' exhibiting strong alpha-naphthylbutyrate esterase activity, a case of (LEMEŽ), 138
Leukaemia, acute unclassified, induction of myeloperoxidase in five cases of (HEIL *et al*), 23
Leukaemia, B-cell chronic lymphocytic, interleukin 2 production in bone marrow of normal individuals and patients associated with (ROSSI *et al*), 207
Leukaemia, chronic lymphatic, production of mouse monoclonal antibodies for the analysis of idiotypes in serum of patients with (DE RIE *et al*), 11
Leukaemia, chronic lymphocytic, heterogeneity of: high CD23 antigen and αIFN receptor expression are features of favourable disease and of cell activation (DADMARZ & CAWLEY), 279
Leukaemia, chronic myelogenous, with T lymphoblastic and mega-

karyoblastic mixed crisis, rearrangement of the *bcr* gene in (YASUKAWA *et al*), 266
Leukaemia, chronic myeloid, electron-microscopic characterization of mixed granulated (hybridoid) leucocytes of (SCHMIDT *et al*), 175
Leukaemia, chronic myelomonocytic, prognostic features of: a modified Bournemouth score gives the best prediction of survival (WORSLEY *et al*), 17
Leukaemia, *de novo* acute myeloid, myelodysplastic relapse of, with trilineage myelodysplasia: a previously unrecognized correlation (BRITO-BABAPULLE *et al*), 411
Leukaemia, hairy cell, and occupational exposures (MCKINNEY *et al*), 142
Leukaemia, T chronic lymphoid, T prolymphocytoid leukaemic transformation of a, characterized by surface markers as helper T cells for B cell immunoglobulin synthesis (PHILIP *et al*), 143
Leukaemia, TdT positive B-cell acute lymphoblastic, without Burkitt characteristics (MICHIELS *et al*), 423
Leukaemias, the acute myeloid, morphologic, immunologic and cytogenetic working classification of (SECOND MIC COOPERATIVE STUDY GROUP), 487
Lymphoma of follicular mantle cells, dendritic reticulum cell pattern as a microenvironmental indicator for a distinct origin of (MANCONI *et al*), 213

Macrophages, mouse and human, production of a multipotential cell (CFU-S) proliferation inhibitor by various populations of (POJDA *et al*), 153
Megakaryopoiesis, abnormal, in acute leukaemia (HOYLE & HAYHOE), 393
Monoclonal antibody ITI-Pl 1 directed against human platelet membrane glycoprotein IIb using extracts of whole platelets and platelet surface and intracellular membranes, characterization of (THORSEN *et al*), 67
Monosomy 7 myeloproliferative syndrome, childhood, disturbed patterns of globin chain synthesis in (SHEFFER *et al*), 357
Myelodysplasia, enrichment of haemopoietic progenitor cells from the marrow of patients with (BAINES *et al*), 159
Myelodysplasia, trilineage, myelodysplastic relapse of *de novo* acute myeloid leukaemia with: a previously unrecognized correlation (BRITO-BABAPULLE *et al*), 411
Myelodysplastic syndrome, antilymphocyte globulin for? (TICHELLI *et al*), 139
Myelodysplastic syndrome, primary, and acute myelogebous leukaemia, refined chromosome study helps define prognostic subgroups in most patients with (YUNIS *et al*), 189
Myelofibrosis, possible and up to now not exploited treatment in (BERANEK), 144
Myeloma, multiple, with verapamil, reversal of drug-resistance in (DURIE & DALTON), 203
Myeloproliferative disorder, transient, with Down's syndrome, platelet peroxidase-positive blast cells in (SUDA *et al*), 181

Neutropenia, adult-onset cyclic, cyclosporin A in (SELLERI *et al*), 137
Neutrophil function in patients on continuous ambulatory peritoneal dialysis (HARVEY *et al*), 273

Paroxysmal nocturnal haemoglobinuria, complement inhibitor S protein is associated with membranes of red blood cells from patients with (SALAMA *et al*), 41
Phthalocyanine photosensitization, differential, of acute myeloblastic leukaemia progenitor cells: a potential purging technique for autologous bone marrow transplantation (SINGER *et al*), 417
Plasma concentrations of C4b-binding protein and vitamin K-dependent protein S in term and preterm infants: low levels of protein S-C4b-binding protein complexes (MALM *et al*), 445
Plasmodium falciparum-infected human erythrocytes, abnormal membrane phospholipid organization in (JOSHI & GUPTA), 255
Plasmodium falciparum parasitized red cells, inability to detect transferrin receptors on (POLLACK & SCHNELLE), 125
Platelet concentrates, stored, pre-transfusion non-invasive quality assessment of stored platelet concentrates (ANDERSON *et al*), 497
Polycythaemia, endogenous erythroid clones in, and their relationship to diagnosis and the response to treatment (REID *et al*), 395
Pregnancy, normal, red cell aggregation during (HUISMAN *et al*), 121
Promyelocytes, HL-60, a phorbol ester tolerant variant of (MCFARLANE *et al*), 291
Protein C deficiency and inherited dysfibrinogenaemia in two unrelated families (GANDRILLE *et al*), 329

Stem cells, haemopoietic, adhesive properties of (GORDON), 149

Thalassaemia, α-, in an Asian Indian (DRYSDALE & HIGGS), 264
Theta globin gene deletions, two different, observed among black newborn babies (FEI *et al*), 249
Thrombocytopenia, acute experimental, and ensuing thrombocytopenia in baboons, selective decrease in platelet dense granule adenine nucleotides during recovery from (SAVAGE *et al*), 75
Thrombocytopenia, increased levels of platelet associated IgG in patients with, are not confined to any particular size class of platelets (HOLME *et al*), 431
Thromboplastins, long-term stability of international reference preparations for (VAN DEN BESSELAAR *et al*), 321
Transferrins, human, monoclonal antibodies to (MASON *et al*), 392

Vesiculation *in vitro*, effect of red cell age on (GREENWALT & DUMASWALA), 465
Vitamin K-dependent proteins C and S, changes in the plasma levels of, and of C4b-binding protein during pregnancy and oral contraception (MALM *et al*), 437
Von Willebrand's disease, acquired type II: demonstration of a complexed inhibitor of the von Willebrand factor–platelet interaction and response to treatment (GOUDEMAND *et al*), 227
Von Willebrand's disease investigated by two novel RFLPs (BERNARDI *et al*), 243
